BUILDING HEALTHY COMMUNITIES   DEL NORTE AND ADJACENT TRIBAL LANDS   STRATEGY MATRIX

Areas of Energy => / Change Vehicles ⇓	Food Systems	Youth Development	Early Childhood Education	School Systems	Neighborhood and School Environments	Prevention Services Alignment
Collaborative Efficacy	–*Creating stronger, better partnerships* → *resulting in better outcomes.* –*How are* we working better together *in new ways to be more effective (breaking down silos eliminating redundancies...)?* –*Are we effectively engaging new partners and bringing new voices and information to the table?*					
People (Resident) Power	–*How are* new people taking leadership in *our community, leading to systems and policy changes?* –*How are residents' transforming their concerns into actions?* –*Do we see more people taking action to create solutions in their own neighborhoods, communities?*					
Youth Power/ Leadership	–*How are youth able to transform their concerns into positive action, to affect systems and policies?* –*What opportunities do youth have to practice leaders, so in 10 years, they can be effective community leaders?*					
Leveraging Partnerships	–*How do we dovetail with ongoing efforts to enhance the efficacy of community collaboratives?* –*How can we bring further funding to the table to help bring the changes envisioned by the community closer to reality?*					
Cultural & Geographic Inclusion/Compet.	–*Do we see more people transforming their concerns into actions, in* <u>all</u> *of our geographic and ethnic communities?* –*Do we see more effective collaboration between ethnic communities than before– resulting in better results for all people?* –*Do we see resident participation in distant neighborhoods affecting decisions and actions of the larger community?*					
Raising the Profile/Changing the Narrative	–*How do we raise the profile, the awareness, of this issue to make it more important and visible in our community?* –*In what ways are we building community knowledge of health issues and root causes (disparities, structural racism,…)?* –*Are we adequately using local, state, Tribal and national events/ media to raise these health issues?* –*Are we changing what the community perceives as normal behaviors on a community, not individual basis?*					
Policy Change	–*What are the rules, or policies, which affect this issue?* – *Are there local, state, Tribal, national policies that would make this work easier and more effective?* – *What opportunities exist to engage new leadership in the process of affecting policies?*					
Moving the Needle	–*How will we show that we have made change?* –*What information do we need to tell the story well (both of the need and the successes)?* –*What information/data do we have, need to collect and how will we plan for quality evaluation from the beginning?* –*What's the connection to Outcomes and 4 big results: Childhood Obesity, Attendance Rates, Health Home and Violence?*
