

Lead Safety Training

Come receive FREE training in how to work safely around lead.

This one day session will address lead safety for renovation, repair and painting, required for work being done in pre-1978 housing. The class will provide EPA certification.

It will be taught by Linda Kite, Director of the Los Angeles Healthy Homes Collaborative and trained staff of FIRM.

Lead Safety Training will be offered on Friday, May 16 and Monday, May 19. You choose the day that works best for you!!
