

Stay Safe and Sound In Southeast

“Help us to help you stay Safe and Sound” by learning more on what action you can take through the Safe and Sound program.

The Safe and Sound program gives residents a way to take back their neighborhoods by joining police-community partnerships to report crime, problem residences, and businesses. It helps to target and, if necessary, shut down buildings and properties that are routinely used for illegal activities such as:

- Producing, selling or using illegal drugs
- Neighborhood gang activity
- Unlawful activities linked to or promoting crime in neighborhoods
- Child sexual abuse/exploitation
- Possessing illegal firearms or explosives
- Prostitution
- Abandoned and vacant homes being used for illegal activity

Southeast Neighborhood Enforcement Team Officers, along with Patrol Officers will put a stop to the above problems; just call 621-6309 or 6338 (you can remain anonymous). If you need help in joining or starting a Neighborhood Watch group in your area, speak with our Southeast Crime Prevention Officer at 559-621-6228.
