

Health Happens in Neighborhoods aims to change the public conversation regarding health considerations in land use planning, food access, community safety, and economic opportunity in order to build neighborhoods with health in mind. The goal is to contribute to the rise of neighborhoods with parks, healthy food access, bike paths and more safe places to walk, run, work and play.

Tiene como objetivo cambiar la conversación pública sobre el uso de la tierra y consideraciones sobre el impacto sobre la salud, el acceso a los alimentos, la seguridad de la comunidad y las oportunidades económicas para crear vecindarios con la salud en mente. El objetivo es contribuir al aumento de vecindades con parques, acceso a alimentos sanos, vías para bicicletas y lugares más seguros para caminar, correr, trabajar y jugar.

Health Happens with Prevention educates key audiences about the benefits of the federal Affordable Care Act and other avenues to preventive health and community wellness. A primary goal is to connect lower-income Californians with prevention-based health initiatives created and promoted by the new health care law.

Educa a las audiencias claves sobre los beneficios de la Ley de Cuidado de Salud a Bajo Precio federal y otras vías para la salud preventiva y el bienestar de la comunidad. Un objetivo principal es conectar a los californianos de bajos ingresos con iniciativas de salud basados en la prevención creados y promovidos por la nueva ley de salud.

Health Happens in Schools spotlights the pivotal role that schools play in the physical, social and emotional health of children. By advocating for healthy foods, physical activity and school discipline policies based on common-sense responsibility and respect, we support safe and healthy school environments that are necessary for academic and life achievement.

Resalta el papel fundamental que las escuelas desempeñan en la salud física, social y emocional de los niños. Por medio de la defensa de los alimentos saludables, la actividad física y las políticas de disciplina de la escuela basadas en la responsabilidad de sentido común y respeto, apoyamos ambientes escolares seguros y saludables que son necesarias para el logro académico y en la vida.
