

## **Earth Skills Series @ Sol Collective presents...**

### **Permaculture 101 - Intro to Permaculture principles and 2013 Earth Skills Series**

***Tues. January 22nd, 2013 6-8:30pm @ Sol Collective, back room***

Want to be a better steward of Mother Earth? Can't find an instruction manual for caring for the Earth, your Community, your Self? Wondering what the term "permaculture" even means???

Come learn the fundamentals of permaculture and explore new ways to understand your relationship with nature. Honor Mother Earth and reclaim your role as a regenerative animator of living systems. We invite you to "Live life to give life to life" and meet other "life" minded individuals.

We will also be introducing our 2013 Earth Skills Series of monthly skill share meetups. Seed to Table youth permaculturists will be hosting space and providing some healthy local and seasonal snacks and refreshments.

Regenerative Donation (sliding scale): \$10, 5, or zero, no one turned away for lack of funds.

Regenerative donations will go toward our programs efforts to maintain Seed Collective, cultivate an Edible City, and plant Food Forests. If you'd like you could also sign up for our volunteer opportunities.

RSVP to [Rafael@solcollective.org](mailto:Rafael@solcollective.org) me or via fb
