Year: 2011-2012
District: 2465789 - -Merced Union High

[Glossary](#)

General Description of this Report

This report provides a count of students involved in one or more incidents¹ during the academic year who were subsequently suspended or expelled² from school. For the purposes of calculating suspensions and expulsion rates in this report, students who were suspended or expelled multiple times are counted only once in the report totals for these respective disciplinary outcome categories. This report also provides a count of students who were reported as being truant at least one time during the academic year.

¹An incident is defined as one or more students committing one or more offenses on the same date at the same time.

²Expulsion counts include all expulsions, even those expulsions where the term of the expulsion has been shortened or the enforcement of the expulsion has been suspended.

Viewing this Report

This report is compiled using student-level data reported to the California Longitudinal Pupil Achievement Data System (CALPADS). The student-level data enables an accurate count of the number of suspensions and expulsions and an identification of the most severe offense committed as part of the incident.

The "Census Enrollment" count provides the total unique or unduplicated number of primary enrollments on the CALPADS Fall 1 Census Day, which is the first Wednesday in October of the associated academic year.

The "Cumulative Enrollment" count provides the total number of unique or unduplicated primary, secondary, and short-term enrollments within the academic year (July 1 to June 30), regardless of whether the student is enrolled multiple times within a school or district. Cumulative enrollment counts are calculated separately at the school, district and state-levels for the purpose of generating suspension, expulsion and truancy rate reports at these levels. For example, a student who is enrolled in two schools within the same district during the academic year, will be counted in each of the school's cumulative enrollment, but only once in the district's cumulative enrollment count. For this reason, adding the cumulative enrollment of all schools within a district will not equal the district's cumulative enrollment listed at the bottom of the district-level rate report.

The total counts in this report cannot be compared to totals previously collected and reported through the Uniform Management Information Reporting System (UMIRS). In UMIRS, LEAs reported the total number of offenses committed by offense type, and the LEAs likely were not able to report only the most severe offense committed per incident, resulting in students being counted more than once for the same incident. Thus it is not advisable to compare this report with a UMIRS report, as the two are different and do not contain comparable data.

Availability of UMIRS Reports

Student discipline reports for the 2010-11 Academic Year and prior, often referred to as the UMIRS Reports, will remain accessible on DataQuest. However, the California Department of Education (CDE) no longer collects student discipline/UMIRS data via the Consolidated Application (ConApp) or the Consolidated Application Reporting System (CARS).
