

*We Get the Odd Jobs Done!*

**MENTORING OUR YOUTH THRU M.O.J.O.**

Distinguished Outreach Services (D.O.S) has been serving our youth and community since 2000 with community events, education, empowerment and youth leadership. D.O.S. is proud to introduce the newest community benefit program.

**The Mentorship Odd Job Organization (M.O.J.O)** provides alternative re-socialization services to undeserved young adults, ages 15 through 23. Young Adults will learn hands on vocational skill while helping you check off those tasks on your “Honey Dew List”.

M.O.J.O Project is a program developed to help at-risk and underserved youth find opportunities to gain employment experience through hands on work and through positive adult mentoring. The project will identify odd jobs such as those on the “Honey Dew List” that our community residents/ or businesses have but they just can’t find the time to get them done. Youth will always be assisted by mentoring adults and will learn skills along the way. The odd jobs can be a variety of tasks such as gardening, yard maintenance, painting small projects, organizing your garage, clean ups and or any another task on the “Honey Dew List”.

**Mentors and M.O.J.O Specialists**

Two major components of the M.O.J.O program are mentors and community partners such as the California Endowments Building Healthy Communities, Boys and Girls Club and local businesses. The M.O.J.O Mentors accompany youth to and from the odd job training sites, as well as assist in career and goal development. Onsite professional staff and community partners advise M.O.J.O Mentors, while providing intensive training in the basic functions of Youth & Leadership development.

Call today to do your part to help support our youth and finally get those tasks off your list!!
